SUBJECT INDEX

Accuracy

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Algorithms

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Artificial intelligence

Belief Networks for Construction Performance Diagnostics, Brenda McCabe, Simaan M. AbouRizk and Randy Goebel, CP Apr. 98, p93-100.

ASCE Publications

Foundation for Research in Computing in Civil Engineering, Sivand Lakmazaheri and William Rasdorf, CP Jan. 98, p9-18.

Automation

Client/Server Framework for On-Line Building Code Checking, Charles S. Han, John C. Kunz and Kincho H. Law, CP Oct. 98, p181-194.

Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.

Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Basements, building

Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Building codes

Client/Server Framework for On-Line Building Code Checking, Charles S. Han, John C. Kunz and Kincho H. Law, CP Oct. 98, p181-194.

Case reports

Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.

The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.

Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Change

Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.

Civil engineering

Foundation for Research in Computing in Civil Engineering, Sivand Lakmazaheri and William Rasdorf, CP Jan. 98, p9-18.

Classification

Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.

Codes

Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.

Compliance

Client/Server Framework for On-Line Building Code Checking, Charles S. Han, John C. Kunz and Kincho H. Law, CP Oct. 98, p181-194.

Computation

Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.

Computer aided design

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Entity-Based Models for Computer-Aided Design Systems, Namhee Kim Hong and Sunggul Hong, CP Jan. 98, p30-41.

Computer aided instruction

The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.

Computer analysis

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Computer applications

Computer-Supported Collaborative Negotiation Methodology, Feniosky Peña-Mora and Chun-Yi Wang, CP Apr. 98, p64-81.

Constructability Analysis: Machine Learning Approach, Mirosław Skibniewski, Tomasz Arciszewski and Kamolwan Lueprasert, CP Jan. 97, p8-16.

Foundation for Research in Computing in Civil Engineering, Sivand Lakmazaheri and William Rasdorf, CP Jan. 98, p9-18.

Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.

Computer hardware

Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.

Computer models

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Computer networks

The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.

Client/Server Framework for On-Line Building Code Checking, Charles S. Han, John C. Kunz and Kincho H. Law, CP Oct. 98, p181-194.

Computer software

The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Tools, L. Allen Adams, CP Oct. 98, p179-180.

Computers

Computer Misuse in Civil Engineering, Douglas J. Peters, CP Oct. 98, p169.

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Concrete, reinforced

Fuzzy Pattern Recognition Model for Diagnosing Cracks in RC Structures, Chiung-Ju Chao and Fu-Ping Cheng, CP Apr. 98, p111-119.

Conditional probability

Belief Networks for Construction Performance Diagnostics, Brenda McCabe, Simaan M. AbouRizk and Randy Goebel, CP Apr. 98, p93-100.

Conflict

Computer-Supported Collaborative Negotiation Methodology, Feniosky Peña-Mora and Chun-Yi Wang, CP Apr. 98, p64-81.

Connections, welded

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Constructibility

Constructability Analysis: Machine Learning Approach, Mirosław Skibniewski, Tomasz Arciszewski and Kamolwan Lueprasert, CP Jan. 97, p8-16.

Construction

Belief Networks for Construction Performance Diagnostics, Brenda McCabe, Simaan M. AbouRizk and Randy Goebel, CP Apr. 98, p93-100.

Information Management in a Collaborative Multiactor Environment: The COMMIT Approach, Yacine Rezgui, Grahame Cooper and Peter Brandon, CP July 98, p136-144.

Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Construction management

Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.

Construction sites

Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Contractors

Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Cooperation

The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Coordination

Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.

Cost minimization

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Costs

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Cracks

Fuzzy Pattern Recognition Model for Diagnosing Cracks in RC Structures, Chiung-Ju Chao and Fu-Ping Cheng, CP Apr. 98, p111-119.

Data collection

Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Data processing

Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Database management systems

Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Databases

The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

SUBJECT INDEX

Accuracy

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Algorithms

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Construction management

Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.

Construction sites

Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Contractors

Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Cooperation

The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Coordination

Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.

Cost minimization

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Costs

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Cracks

Fuzzy Pattern Recognition Model for Diagnosing Cracks in RC Structures, Chiung-Ju Chao and Fu-Ping Cheng, CP Apr. 98, p111-119.

Data collection

Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Data processing

Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Database management systems

Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Databases

The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Decision making
Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.
Information Management in a Collaborative Multiactor Environment: The COMMIT Approach, Yacine Rezgui, Grahame Cooper and Peter Brandon, CP July 98, p136-144.

Decision support systems
Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.
Information Management in a Collaborative Multiactor Environment: The COMMIT Approach, Yacine Rezgui, Grahame Cooper and Peter Brandon, CP July 98, p136-144.
Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Design
Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.
Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.
Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.
Information Technology in Engineering Design, Ram D. Sriram, CP July 98, p123-125.
Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.
Standards Modeling Language, Han Kiliccote and James H. Garrett, Jr., CP July 98, p129-135.

Design data
Entity-Based Models for Computer-Aided Design Systems, Namhee Kim Hong and Sunggul Hong, CP Jan. 98, p30-41.
Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.

Design events
Entity-Based Models for Computer-Aided Design Systems, Namhee Kim Hong and Sunggul Hong, CP Jan. 98, p30-41.

Design standards
Standards Modeling Language, Han Kiliccote and James H. Garrett, Jr., CP July 98, p129-135.
Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Development
The AASHTOWare® Joint Development Process, Loren R. Risch, P.E., CP Jan. 98, p8.

Dispute resolution
Computer-Supported Collaborative Negotiation Methodology, Feniosky Peña-Mora and Chun-Yi Wang, CP Apr. 98, p64-81.

Drawings
Civil Engineering Meets GIS, Dean Bowman, P.E., CP Jan. 98, p5-7.

Dynamic models
Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Earthquake engineering
Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Earthquakes
Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Engineering
Information Technology in Engineering Design, Ram D. Sriram, CP July 98, p123-125.

Engineering education
The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.
Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Errors
Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.
Computer Misuse in Civil Engineering, Douglas J. Peters, CP Oct. 98, p169.
Tools, L. Allen Adams, CP Oct. 98, p179-180.

Evaluation
Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Evolutionary computation
Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.
Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Experience
Tools, L. Allen Adams, CP Oct. 98, p179-180.

Expert systems
Fuzzy Pattern Recognition Model for Diagnosing Cracks in RC Structures, Chiung-Ju Chao and Fu-Ping Cheng, CP Apr. 98, p111-119.
Standards Modeling Language, Han Kiliccote and James H. Garrett, Jr., CP July 98, p129-135.

Facilities
Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.
Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Failures
Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.
Avoiding Engineering Failures Caused by Computer-Related Errors, Satinder P. S. Puri, CP Oct. 98, p170-172.
Computer Misuse in Civil Engineering, Douglas J. Peters, CP Oct. 98, p169.
Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Force
Recursive Formulation of Force Method Programmed in Logic, Vlasis K. Koumousis, CP Jan. 98, p19-29.

Forensic engineering
Computer Misuse in Civil Engineering, Douglas J. Peters, CP Oct. 98, p169.

Frames
Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Fuzzy sets
Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.
Fuzzy Pattern Recognition Model for Diagnosing Cracks in RC Structures, Chiung-Ju Chao and Fu-Ping Cheng, CP Apr. 98, p111-119.

Geographic information systems
Civil Engineering Meets GIS, Dean Bowman, P.E., CP Jan. 98, p5-7.
Editorial. Issues in Adapting Linear Referencing Systems for Transportation Applications: Current Practice and Future Outlook, Don Kiel, Jon Pollock and Minhua Wang, CP Apr. 98, p60-61.
Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.
Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Geotechnical engineering
Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.

Graphic techniques
Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Highway accident potential
Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.

Identification
Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Image analysis
Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Images
Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Information
Information Technology in Engineering Design, Ram D. Sriram, CP July 98, p123-125.

Information management
Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.
Information Management in a Collaborative Multiactor Environment: The COMMIT Approach, Yacine Rezgui, Grahame Cooper and Peter Brandon, CP July 98, p136-144.
Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.

Infrastructure
Civil Engineering Meets GIS, Dean Bowman, P.E., CP Jan. 98, p5-7.

Integrated systems
Entity-Based Models for Computer-Aided Design Systems, Namhee Kim Hong and Sunggul Hong, CP Jan. 98, p30-41.
Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.

Knowledge acquisition
Constructability Analysis: Machine Learning Approach, Mirosław Skibniewski, Tomasz Arciszewski and Kamolwan Lueprasert, CP Jan. 97, p8-16.

Layout
Site-Level Facilities Layout Using Genetic Algorithms, Heng Li and Peter E. D. Love, CP Oct. 98, p227-231.

Learning systems
Constructability Analysis: Machine Learning Approach, Mirosław Skibniewski, Tomasz Arciszewski and Kamolwan Lueprasert, CP Jan. 97, p8-16.

Linear systems
Editorial. Issues in Adapting Linear Referencing Systems for Transportation Applications: Current Practice and Future Outlook, Don Kiel, Jon Pollock and Minhua Wang, CP Apr. 98, p60-61.

Liquefaction
Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.

Logic programming languages
Recursive Formulation of Force Method Programmed in Logic, Vlasis K. Koumousis, CP Jan. 98, p19-29.

Maintenance
Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.

Mapping
Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Maps
Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Mathematical models
Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Matrix methods
Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.

Modeling
Information Model for Managing Design Changes in a Collaborative Environment, Ahmed Mokhtar, Claude Bédard and Paul Fazio, CP Apr. 98, p82-92.
Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Models

Entity-Based Models for Computer-Aided Design Systems, Namhee Kim Hong and Sunggul Hong, CP Jan. 98, p30-41.

Monitoring

Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Multimedia

The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Multistory buildings

Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Negotiations

Computer-Supported Collaborative Negotiation Methodology, Feniosky Peña-Mora and Chun-Yi Wang, CP Apr. 98, p64-81.

Networks

Editorial. Issues in Adapting Linear Referencing Systems for Transportation Applications: Current Practice and Future Outlook, Don Kiel, Jon Pollock and Minhua Wang, CP Apr. 98, p60-61.

Neural networks

Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.

Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.

Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.

Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Object-oriented languages

Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Optimization

Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.

Owners

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Pavement condition

Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.

Pavement damage

Novel System for Automatic Pavement Distress Detection, H. D. Cheng and M. Miyojim, CP July 98, p145-152.

Performance evaluation

Belief Networks for Construction Performance Diagnostics, Brenda McCabe, Simaan M. AbouRizk and Randy Goebel, CP Apr. 98, p93-100.

Pipelines

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Processing

Standards Modeling Language, Han Kiliccote and James H. Garrett, Jr., CP July 98, p129-135.

Project management

Computer-Supported Collaborative Negotiation Methodology, Feniosky Peña-Mora and Chun-Yi Wang, CP Apr. 98, p64-81.

Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Pumping

Evolutionary Algorithm for Minimization of Pumping Cost, Nesa Ilich and Slobodan P. Simonovic, CP Oct. 98, p232-240.

Qualifications

Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Quality assurance

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Recursive functions

Recursive Formulation of Force Method Programmed in Logic, Vlasis K. Koumousis, CP Jan. 98, p19-29.

Repairing

Artificial Neural Network Approach for Pavement Maintenance, Abdullah M. Alsugair and Ali A. Al-Qudrah, CP Oct. 98, p249-255.

Research

Foundation for Research in Computing in Civil Engineering, Sivand Lakmazaheri and William Rasdorf, CP Jan. 98, p9-18.

Information Technology in Engineering Design, Ram D. Sriram, CP July 98, p123-125.

Responsibility

Tools, L. Allen Adams, CP Oct. 98, p179-180.

Satellites

Data Acquisition Through Emerging High-Resolution Satellite Imagery, Hassan A. Karimi, CP July 98, p126-128.

Seismic design

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Simulation

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Simulation Modeling and Management of a Large Basement Construction Project, W. M. Ng, E. L. Khor, L. K. Tiong and J. Lee, CP Apr. 98, p101-110.

Solutions

Power and Responsibility: Facing the Challenges of Modernization, Jason P. Heroux, P.E., CP Oct. 98, p177-178.

Prudent Computer Usage to Prevent Engineering Problems or Failures, R. J. Kratky, P.E., CP Oct. 98, p173-174.

Spatial analysis

Information Systems (GIS), David A. Holdstock, CP Jan. 98, p1-4.

Spatial Liquefaction Analysis System, Ronaldo Luna and J. David Frost, CP Jan. 98, p48-56.

Spatial data

Engineering, Graphic Information Systems and Databases: A New Frontier, Jack Dangermond and Adena Schutzberg, CP July 98, p121-122.

Standard deviation

Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Standards

Hybrid Environment for Standards Processing, A. I. Neilson, B. Kumar and I. A. MacLeod, CP Oct. 98, p195-207.

Standards Modeling Language, Han Kiliccote and James H. Garrett, Jr., CP July 98, p129-135.

Stress strain relations

Assessing the Accuracy of Computing in Structural (Seismic) Engineering, Y. Henry Huang, P.E., CP Oct. 98, p175-176.

Structural analysis

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Recursive Formulation of Force Method Programmed in Logic, Vlasis K. Koumousis, CP Jan. 98, p19-29.

Self-Organizing Neural Network for Identification of Natural Modes, Abhijit Mukherjee, CP Jan. 97, p74-77.

Structural elements

Using Object-Communication for Design Standards Modeling, M. K. Badrah, I. A. MacLeod and B. Kumar, CP July 98, p153-161.

Structural failures

Tools, L. Allen Adams, CP Oct. 98, p179-180.

Supervision

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Teaching methods

The Civil Engineering Resource Library, Paul S. Chinowsky, CP Oct. 98, p208-214.

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Technology

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Information Technology in Engineering Design, Ram D. Sriram, CP July 98, p123-125.

Three-dimensional analysis

Editorial: Quality Assurance in Computer Aided Design, Evan Reis, CP Apr. 98, p62-63.

Traffic accident analysis

Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.

Traffic accidents

Comparison of Fuzzy and Neural Classifiers for Road Accidents Analysis, Tarek Sayed and Walid Abdelwahab, CP Jan. 98, p42-47.

Training

Multimedia Development Software: Object-Oriented Interface-Based Simulation, Hossam El-Bibany, CP Oct. 96, p295-299.

Transportation

Civil Engineering Meets GIS, Dean Bowman, P.E., CP Jan. 98, p5-7.

Editorial. Issues in Adapting Linear Referencing Systems for Transportation Applications: Current Practice and Future Outlook, Don Kiel, Jon Pollock and Minhua Wang, CP Apr. 98, p60-61.

Transportation planning

Civil Engineering Meets GIS, Dean Bowman, P.E., CP Jan. 98, p5-7.

Uncertainty analysis

Belief Networks for Construction Performance Diagnostics, Brenda McCabe, Simaan M. AbouRizk and Randy Goebel, CP Apr. 98, p93-100.

U.S. Army Corps of Engineers

Editorial. Model-Based Collaborative Engineering: An Owner's Perspective, Michael J. O'Connor, CP Apr. 98, p57-59.

Validation

Verification and Validation of Case-Based Prequalification System, S. Thomas Ng and Nigel J. Smith, CP Oct. 98, p215-226.

Weighting functions

Calculating Weight Matrix of Neural Network for Resource Leveling, D. Savin, S. Alkass and P. Fazio, CP Oct. 98, p241-248.
